

PdfSharpDsl

Complete feature demonstration

A4 portrait: 595 x 842 points

Variables, arithmetic, comparison and concatenation

$A+B=22$, $A-B=12$, $A*B=85$

$A/B=3.4$, $A\%B=2$, unary values $--5$ and 5

AND condition: true

OR condition: true

$<>$ comparison

$==$ comparison

This document is itself the example source. Each page groups related commands and uses comments, optional semicolons, expressions, variables, built-in page variables, host formula functions, control flow and reusable UDFs.

Drawing primitives and styles

solid

dash

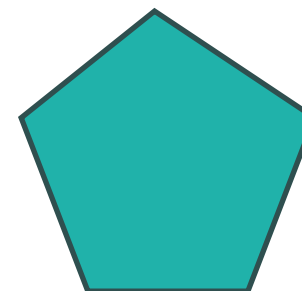

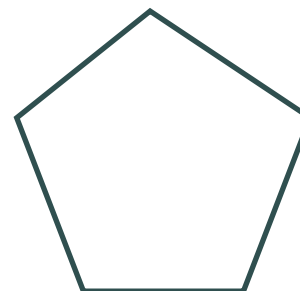

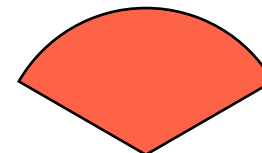

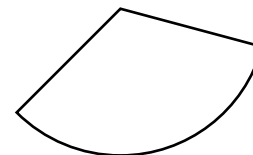

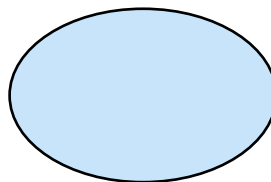

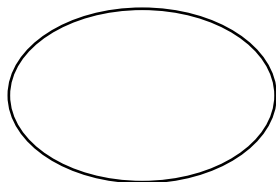

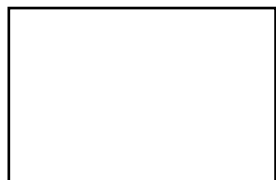

dot

dashdot

dashdotdot / RGB hex

grayscale colors: g0.45 / g0.80

Negative width and height use the remaining page area

Text layout, orientation and fonts

left / top

center / center

right / bottom

highlight brush

vertical

30 degree rotation

regular

bold

italic

bold italic

underline

strikeout

TEXT with a point and MaxWidth wraps a longer paragraph over several lines.

TEXT with a rectangle supports multiline content.
Second explicit line.
Third explicit line.

Left title

Centered title

Right title

Negative title margin is measured from the bottom

Control flow and reusable drawing

FOR is inclusive; UDF parameters are locally scoped.

Iteration 0

Iteration 1

Iteration 2

Iteration 3

Iteration 4

Iteration 5

Iteration 6

IF branch selected: $A \geq B$ and $B \leq A$

Tables with explicit rows

Feature	Syntax	Notes
Automatic sizing	Width=auto	Desired width follows content up to MaxWidth
Fixed row height	ROW 48	A formula may define the row height
Multiline cell	COL expression	Line one Line two Line three
Short row	Missing cells	

Table ROWTEMPLATE with host functions

Date	Comment count	Evaluated label
03/06/2023	2	Global item 1
03/06/2023	1	Global item 2
03/06/2023	2	Global item 3

Paginating and nested row templates

Group 0	
	Nested item 0.0
	Nested item 0.1
Group 1	
	Nested item 1.0
	Nested item 1.1
Group 2	
	Nested item 2.0
	Nested item 2.1

Measured outer template height: 188
